## About Diasun

The Brand Diasun was first established in the mid-1980s with their first diamond trading office in Hong Kong. It now has offices in Surat, Mumbai, Taiwan, China, and the US. With over 30 years of experience in the diamond and jewelry field, Diasun can now provide a product comparable to none.

The Diamonds are sourced from the city of Surat, where most of the world's diamonds are still polished and is the hometown of the founders of Diasun. Diasun knows that the greatest cost of any jewelry lies in the diamonds, thus we go right to the source and are updated daily with the market prices. As we still wholesale loose diamonds; the right price & the right quality are of utmost importance.

The jewelry is manufactured in our facility in Hong Kong (China), which is still the world's largest producer of high-quality fine jewelry, where the founders have resided for over 26 years. Having a presence in Hong Kong for over 2 decades provides us with an insight into future trends of Fine Diamond Jewelry. These two major advantages allow Diasun Fine Jewelry to provide high-quality diamond jewelry at the most affordable prices.
